## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 10 is objected to because of the following informalities:

- The claim was amended by the Applicant on March 25, 2005, the changes were not present on the copy of the claims submitted in the communication filed on December 19, 2005.

Appropriate correction is required.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Art Unit: 2837

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims (1 and 11), (2 and 12), (4 and 14), (5 and 15), (7, 8, 17 and 18), (9, 10, 19 and 20) are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 7, 9, 14, 21, 22 and 10, respectively, of U.S. Patent No. 6,624,605. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed subject matter presented in the current application is claimed in the U.S. Patent No. 6,624,605.

### ***Response to Arguments***

3. The Applicant established the common ownership of the current application and the patent to Powder et al. US 6,624,605, this situation has raised a Double Patenting issue as discussed above.

### ***Conclusion***

4. The attached hereto PTO Form 892 lists prior art made of record that the Examiner considered it pertinent to applicant's disclosure.
